Do you really know who you are? What you are?

Earth: Near Future

Experience has taught Sarah Rasmussen that hot guys don't go for geeks like her. Their retreat speed is usually proportional to the value of her IQ. However, for every rule it seems there is an exception—or in her lucky case, two.

When confronted with the disturbing fact she has been genetically manipulated in order to save an alien race stranded on Earth for a thousand years, she needs the strength of the men's devotion to deal with the life-changing news. But when she learns that the love of the two men she has come to care for deeply is not quite as it appears, it could shatter her heart forever.

Nick Bannister and Adam McKeoun will never stop fighting to convince Sarah she is their world, no matter what the source of their emotion. They will let nothing stand in their way of forging a happiness that will transcend any challenge, especially not a calculating and determined enemy bent on Sarah's destruction.
