The Ultimate Alto Saxophone Scales Fingering Chart: With Visual Concert C Transposition is a book developed for serious saxophone players who want to learn the Major, Minor, and Blues scales of every key. This book gives the fingering for each note in the scales, making it easy for beginner, intermediate, and advanced students to learn and perfect the scales of each note. This book also gives you the transposed concert c notation as well, while providing a readable color chart to help you identify your progress through each octave register. Additionally, the book transposes the fingering scales and chart into Concert C so that you can quickly play in the right key with your band, pianist, or duet partner. This book is a great accompaniment in the studio, in the school band, or for personal use. Save time and learn fast with this easy to read scales chart, which lays out the Major, Minor, and Blues scales step by step! I've seen nothing else out there like this book. It's easy to follow and will significantly decrease your practice time.
