The Portal (An Alternative History Novel) Richard Bowker

Larry Barnes has made a spectacular discovery—an invisible portal to a parallel universe, where Burger King is Burger Queen, cell phones are huge, and his hometown doesn't look anything like the place where he lives.

When Larry returns, he tells his best friend, Kevin, who convinces him to re-enter The Portal. What could go wrong?

This time, Larry and Kevin enter a world devoid of modern technology, where "America" doesn't exist, and New England is losing the war against Canada and New Portugal. Unable to get back to The Portal, they offer their knowledge to the New England army in order to survive and gain hope of returning home.

But when the ambitious lieutenant using their services discovers just how valuable Larry and Kevin's knowledge is, he changes the plan.
