## **Hybrid Architectures for Intelligent Systems** Abraham Kandel, Gideon Langholz

Hybrid architecture for intelligent systems is a new field of artificial intelligence concerned with the development of the next generation of intelligent systems. This volume is the first book to delineate current research interests in hybrid architectures for intelligent systems.

The book is divided into two parts. The first part is devoted to the theory, methodologies, and algorithms of intelligent hybrid systems. The second part examines current applications of intelligent hybrid systems in areas such as data analysis, pattern classification and recognition, intelligent robot control, medical diagnosis, architecture, wastewater treatment, and flexible manufacturing systems.

Hybrid Architectures for Intelligent Systems is an important reference for computer scientists and electrical engineers involved with artificial intelligence, neural networks, parallel processing, robotics, and systems architecture.

### **From reader reviews:**

#### **Shirley Demers:**

Book is to be different per grade. Book for children until finally adult are different content. As you may know that book is very important normally. The book Hybrid Architectures for Intelligent Systems has been making you to know about other knowledge and of course you can take more information. It is rather advantages for you. The book Hybrid Architectures for Intelligent Systems is not only giving you much more new information but also to get your friend when you truly feel bored. You can spend your current spend time to read your guide. Try to make relationship together with the book Hybrid Architectures for Intelligent Systems. You never feel lose out for everything in the event you read some books.

#### **Julia Hanson:**

In this 21st millennium, people become competitive in every single way. By being competitive now, people have do something to make these people survives, being in the middle of the actual crowded place and notice simply by surrounding. One thing that at times many people have underestimated this for a while is reading. Yeah, by reading a book your ability to survive improve then having chance to stay than other is high. For yourself who want to start reading a book, we give you this Hybrid Architectures for Intelligent Systems book as starter and daily reading publication. Why, because this book is more than just a book.

#### **Charles Myers:**

This book untitled Hybrid Architectures for Intelligent Systems to be one of several books this best seller in this year, here is because when you read this book you can get a lot of benefit onto it. You will easily to buy that book in the book shop or you can order it by using online. The publisher of this book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Mobile phone. So there is no reason to your account to past this guide from your list.

#### **Joan Toon:**

You may spend your free time to see this book this publication. This Hybrid Architectures for Intelligent Systems is simple to create you can read it in the park, in the beach, train as well as soon. If you did not get much space to bring often the printed book, you can buy often the e-book. It is make you much easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
