VisualDx: Essential Pediatric Dermatology (VisualDx: The Modern Library of Visual Medicine)

VisualDx: Essential Pediatric Dermatology is the first of a series of printed companions to the **VisualDx** online decision support system. The book enables the clinician to read the fundamentals of common and serious pediatric skin diseases on the printed page, then search the online system to answer a clinical question at the point of care. Like the **VisualDx** online system, the book is organized by symptoms and other visual clues. Searching in this fashion will lead to precise, targeted, and patient-specific differential diagnoses. More than 500 full-color illustrations show variations of pediatric skin disorders in children of all skin colors.
