## **Build Your Own GUN RACK Wall Mounted San Angelo Style Pattern DIY PLANS; So Easy, Beginners Look Like Experts; PDF Download Version so you can get it NOW!** Peter Harrington

This is a complete set of plans for my favorite GUN RACK; San Angelo Style!!!

The Gun Rack Upon Completion features:

- 1) Designed to protect your firearms with cloth/felt liners.
- 2) Approximate Size is perfect at about 35" H X 26" W X 5" D.
- 3) Step by Step and easy directions with diagrams for every step.
- 4) Blueprint like patterns; Full Size Pattern for those important Steps.
- 5) Attractive and decorative Design that includes a locking compartment.
- 6) Level, Sturdy, and Strong Design that supports four rifles or shotguns.
- 7) Complete Materials List & Pattern Dimensions that use the least \$ of bldg. material!
- 8) Designed by an Experienced Expert Wood Worker with over 20 years of experience!
- 9) Continued Technical Support from Me "WoodPatternExpert"; 20 Years of Experience!

My instructions with easy to follow patterns and directions are designed as a construction project for the beginning woodworker. Extensive attention is given to speed and ease of construction, with a minimum of tools. A great Gun Rack can be built with just a jig saw, table saw, and drill. Directions are aimed at the beginning woodworker, but should not bore even an experienced carpenter.

**WARNING:** Everyone Will Love This Gun Rack Design. Just about everyone who sees it will want you to build one or more, for them. (That's the reason I decided to write these plans.) Unlike most plans out there, you will be able to understand these! I have looked at others and I guarantee they are not as good as my plans!

The plan features:

- 12 pages containing very detailed, step by step instructions.
- Each step includes diagrams and or photographs to assist in the construction process.
- 6 Patterns; One for each piece that makes construction so easy a "caveman could do it"!
- Built entirely from Standard 1X6's and 1/8" Thick Back Panel Board or any thickness you prefer.
- Tips, Tricks and Notes that allow you to cut without error the first time.
- Can be built with just a jig saw, table saw, and drill.
- This project plan is designed for the beginning woodworker, but should not bore even the most experienced carpenter.
