## **Hegel: Lectures on the History of Philosophy Volume II: Greek Philosophy**

Hegel's Lectures on the History of Philosophy offer one of the best points of entry to his philosophical system. The second volume (dating from 1825-6) covers a thousand years of ancient Greek philosophy; this is the period to which Hegel devoted by far the most attention, and which he saw as absolutely fundamental for all that came after it. This edition sets forth clearly, and for the first time for the English reader, what Hegel actually said. It forms part of OUP's Hegel Lectures series, presenting accurate new translations accompanied by editorial introductions and annotations.
