The Sociolinguistics of Globalization (Cambridge Approaches to Language Contact) Professor Dr Jan Blommaert

Human language has changed in the age of globalization: no longer tied to stable and resident communities, it moves across the globe, and it changes in the process. The world has become a complex 'web' of villages, towns, neighbourhoods and settlements connected by material and symbolic ties in often unpredictable ways. This phenomenon requires us to revise our understanding of linguistic communication. In *The Sociolinguistics of Globalization* Jan Blommaert constructs a theory of changing language in a changing society, reconsidering locality, repertoires, competence, history and sociolinguistic inequality.
