Energy Victory: Winning the War on Terror by Breaking Free of Oil Robert Zubrin

In this compelling argument for a new direction in US energy policy, the author lays out a bold plan for breaking the economic stranglehold that the OPEC oil cartel has on the country and the world. It is suggested that the US relationship with OPEC has resulted in the looting of the American economy, corruption of the political system and has helped fund terrorist units dedicated to the destruction of the US. The book offers an exciting vision for a dynamic new energy policy which will not only help safeguard US security in the future but will also provide solutions for global warming and Third World development.
