Minecraft Creator Markus "Notch" Persson (Stem Trailblazer Bios) Kari Cornell

Do you play computer games? If you do, you've probably played *Minecraft*. When *Minecraft* creator Markus Persson was young, he wasn't very interested in the games themselves. He was more interested in the programming instructions in the computer's manual. By the time Persson was eight years old, he was writing code for his own computer games.

When he was eighteen, Persson landed his dream job as a video game programmer. In 2009, he designed *Minecraft* in a single weekend. In the game, players use blocks to build whatever they choose. Persson wanted to let players use their imaginations, and the idea paid off. Today, *Minecraft* is one of the most popular computer games in the world. Although Persson doubts he will ever top this success, he continues to develop games, while fans wait for what's next.
