**Conformal Field Theory (Graduate Texts in Contemporary Physics)** Philippe Francesco, Pierre Mathieu, David Sénéchal

Filling an important gap in the literature, this comprehensive text develops conformal field theory from first principles. The treatment is self-contained, pedagogical, and exhaustive, and includes a great deal of background material on quantum field theory, statistical mechanics, Lie algebras and affine Lie algebras. The many exercises, with a wide spectrum of difficulty and subjects, complement and in many cases extend the text. The text is thus not only an excellent tool for classroom teaching but also for individual study. Intended primarily for graduate students and researchers in theoretical high-energy physics, mathematical physics, condensed matter theory, statistical physics, the book will also be of interest in other areas of theoretical physics and mathematics. It will prepare the reader for original research in this very active field of theoretical and mathematical physics.

**From reader reviews:**

**Shane Ward:**

The ability that you get from Conformal Field Theory (Graduate Texts in Contemporary Physics) is a more deep you excavating the information that hide inside words the more you get serious about reading it. It doesn't mean that this book is hard to recognise but Conformal Field Theory (Graduate Texts in Contemporary Physics) giving you enjoyment feeling of reading. The writer conveys their point in selected way that can be understood by anyone who read this because the author of this publication is well-known enough. This book also makes your current vocabulary increase well. That makes it easy to understand then can go along, both in printed or e-book style are available. We recommend you for having this Conformal Field Theory (Graduate Texts in Contemporary Physics) instantly.

**Stewart Ramirez:**

Reading a reserve can be one of a lot of pastime that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a publication will give you a lot of new data. When you read a guide you will get new information due to the fact book is one of several ways to share the information as well as their idea. Second, examining a book will make you actually more imaginative. When you studying a book especially fictional book the author will bring one to imagine the story how the figures do it anything. Third, you can share your knowledge to other people. When you read this Conformal Field Theory (Graduate Texts in Contemporary Physics), you can tells your family, friends and also soon about yours book. Your knowledge can inspire average, make them reading a e-book.

**Shirley Martins:**

Reading a book to become new life style in this calendar year; every people loves to read a book. When you read a book you can get a lots of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you want to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, in addition to soon. The Conformal Field Theory (Graduate Texts in Contemporary Physics) provide you with a new experience in reading through a book.

**Valery Carpenter:**

Many people spending their moment by playing outside using friends, fun activity having family or just watching TV the whole day. You can have new activity to enjoy your whole day by reading through a book. Ugh, you think reading a book can definitely hard because you have to bring the book everywhere? It fine you can have the e-book, taking everywhere you want in your Mobile phone. Like Conformal Field Theory (Graduate Texts in Contemporary Physics) which is keeping the e-book version. So , try out this book? Let's find.
