Do you want to know the answers to hard science questions that most adults don't know the answers to? If so, this is the book for you! Why is the Sky Blue? teaches kids about science in a fun, rhyming style and gives the answers to tough questions like: Why is the sky blue? Why do boats float? Why do we see the moon during the day? Why is water wet? How is electricity made? What is gravity? How do airplanes stay up? Where do bees go in the winter? What makes a rainbow? Why is the ocean salty? What makes popcorn pop? This book provides all of the answers in fun, easy verses that make the science behind the answers easy to understand and memorable! A sample of the first couple of verses for the question Why is the sky blue? Have you ever wondered why the sky is blue and not red or green or another hue? The reason it's blue is pretty cool And I bet you will think it is too A lot of people think sunlight is white But it's really made up of all different colors of light Light travels from the sun in waves Some are long and some are short But they all come to earth from the sun each and every sort Ages: 7 to 107
