Advanced Fuzzy Logic Technologies in Industrial Applications (Advances in Industrial Control)

Advanced Fuzzy Logic Technologies in Industrial Applications (Advances in Industrial Control)

This book introduces a dynamic, on-line fuzzy inference system. In this system membership functions and control rules are not determined until the system is applied and each output of its lookup table is calculated based on current inputs. The book describes the real-world uses of new fuzzy techniques to simplify readers' tuning processes and enhance the performance of their control systems. It further contains application examples.
