For years, stage plays have provided a rich source of inspiration for the film industry. Yet there hasn't been a book that has adequately addressed this artistic phenomenon -- until now. An excellent companion to Facts On File's *The Encyclopedia of Novels Into Film*, the volume opens with an introduction that traces the history of stage plays adapted for the silver screen. Each of the 300 entries is classified within one of three sections: Dramatic Adaptations, Shakespearean Adaptations, and Musical Adaptations. Each entry includes an overview of the stage play -- the title, playwright, plot summary, cast, production notes, critical acclaim -- along with an assessment of related film adaptations. Seventy-five black-and-white film stills and twenty-five line art portraits of select playwrights are included throughout the book. Informational appendixes include: -- "Backstage with the Bard": movies that have been inspired by or are connected to Shakespeare-- "Opera on Film": operas that have been adapted for the silver screen.
