QUANTUM DIVINITY: (WHAT IS THIS PLACE, AND WHY AM I HERE?)

MARK J. O'KONSKI

QUANTUM DIVINITY: (WHAT IS THIS PLACE, AND WHY AM I HERE?) MARK J. O'KONSKI

What is reality? Why are we here? What is the purpose of life? Is there life after death? Do I have a soul? Is there a God? The answers to these most daunting questions actually lie somewhere within the spectrum between the polar opposites of creator-god monotheism and atheism. In fact, the seemingly endless argument between theists and atheists totally obscures the truth about how physical and spiritual realities coexist and relate to each other.

This work reflects the results of the author's personal search for meaning. It describes, in a logical and understandable manner, the scientific underpinnings of physical reality and builds from there to a surprisingly fresh and plausible construct that demonstrates the way material and spiritual realities may actually co-exist.

Getting to the truth is not simple. The answers offered by religious, scientific and philosophical leaders and experts can be very misleading, unless they are brought together and carefully integrated. That is what this book does.

From the author: "By nature I am a skeptic and a pessimist. The good news is that, at the end of my intellectual journey, even I believe there is reason for hope. I want to share what I have learned with you. There is very significant evidence that some part of our being existed before this life and may continue beyond it. Why, and for what purpose? Well, those answers may very well surprise you."
