Unique in its structure, Federal Income Taxation, 4E, presents core materials that cover the basics of tax law and then offers "cells" at the end of the book that are self-contained units with more in-depth discussion of certain topics. This flexible structure allows professors to customize their tax course by selecting only the additional in-depth materials they want to use.

The stellar author team, with years of scholarship and teaching experience, feature notes and questions that provide background information and place the cases and statutes in context. More than 150 problems are interspersed throughout the core text and the cells that challenge students to apply theory to specific situations.

Key Features:

- Thoroughly updated with the latest tax legislation
- Updated rate brackets, personal exemptions, standard deductions, earned income phase-outs, and eligibility for various credits and deductions, based on the IRS revenue procedure
