Learn to draw a portrait in 15 minutes! In the past ten years, I have earned thousands of dollars sitting at events and drawing fast sketches of people's faces. I got faster and more precise as I kept practicing, but I also discovered you need some basic knowledge to even give it a try. While you're sketching as fast as you can and looking at the facial features, analyzing everything in your brains, there are certain tricks you can apply, questions you have to ask yourself when you're analyzing a face, and tips you should know in order to minimize the time you spend on them.

In this book, I will tell you what I know, give you a number of examples, and take you through what I have found to be the most effective steps when you're sketching a portrait.

This is a unique method that will help you become better faster. Don't wait and grab this fantastic chance of becoming a fast portrait artist!
