Syriza in Greece received around 27% in the elections of 2012. This is the unfinished story of what has been happening since and what the future might hold in a Syriza led government from the point of view of its relationship with the IMF-EU-ECB (known in Greece as the Troika). The book includes many eye-witness reports and focuses on the key players of Syriza. It originates from a Marxist critique of what the author describes as the Fake Left of Greece
