## Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science)

Digital libraries (DLs) are major advances in information technology that frequently fall short of expectations [7, 28]. Covi & Kling [7] argue that understanding the wider context of technology use is essential to understanding digital library use and its implementation in different social worlds. Recent health informatics research also suggests that social and organisational factors can determine the success or failure of healthcare IT developments [8, 11, 12]. Heathfield [11] suggests that this is due to the complex, autonomous nature of the medical discipline and the specialized (clinician or software engineer) approach to system development. Negative reactions to these systems is often due to inappropriate system design and poor implementation. However, there may be other less obvious social and political repercussions of information system design and deployment. Symon et al [26] have identified, within a hospital scenario, how social structures and work practices can be disrupted by technology implementation. Although these systems often deal with sensitive, personal information, other system design research has found that apparently innocuous data can be perceived as a threat to social and political stability [1,2,3]. To understand the impact of DLs within the medical profession, an in-depth evaluation is required of the introduction and later development of these applications within their specific social and organisational settings. However, as Covi & Kling [7] have highlighted, there are few high-level theories that aid designers in understanding the implication of these issues for DL design and implementation.

**From reader reviews:**

**Richard Twombly:**

Book is actually written, printed, or created for everything. You can understand everything you want by a e-book. Book has a different type. As we know that book is important factor to bring us around the world. Alongside that you can your reading proficiency was fluently. A book Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) will make you to always be smarter. You can feel considerably more confidence if you can know about anything. But some of you think this open or reading a new book make you bored. It is not make you fun. Why they are often thought like that? Have you seeking best book or acceptable book with you?

**Elliott Salazar:**

The reason? Because this Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will zap you with the secret that inside. Reading this book beside it was fantastic author who else write the book in such incredible way makes the content within easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This book will give you a lot of advantages than the other book possess such as help improving your talent and your critical thinking means. So , still want to hold off having that book? If I ended up you I will go to the book store hurriedly.

**Dennis Green:**

Can you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Make an effort to pick one book that you find out the inside because don't ascertain book by its protect may doesn't work this is difficult job because you are afraid that the inside maybe not while fantastic as in the outside appearance likes. Maybe you answer might be Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) why because the excellent cover that make you consider regarding the content will not disappoint you. The inside or content is definitely fantastic as the outside or cover. Your reading sixth sense will directly show you to pick up this book.

**Sabrina Crockett:**

You can obtain this Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) by go to the bookstore or Mall. Merely viewing or reviewing it may to be your solve difficulty if you get

difficulties to your knowledge. Kinds of this publication are various. Not only by written or printed but additionally can you enjoy this book by means of e-book. In the modern era similar to now, you just looking by your local mobile phone and searching what their problem. Right now, choose your own ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still revise. Let's try to choose right ways for you.
