You're about to discover how to think like a Billionaire!! Since I am about 15 years old, I've always been fascinated by rich people. I've read countless books on self-improvement and hundreds of biographies throughout the years.

I've learned more by reading these books than I learned during my four years at university in Commerce. Think about it, if you want to be very successful, it makes more sense to learn from highly successful people instead of by teachers who usually have never even started a business?

I wrote this book to save you time. You don't have to read hundreds of biographies like I did to learn how to think like a billionaire. The greatest Quotes by the World's Billionaire are in this book. I recommend you to read this book often, because at some point you will realize that you are starting to THINK LIKE A BILLIONAIRE. They have a different vision of life in general, and by studying how they think, you'll think like this too.
